

Well-ventilated woven combine bag series

DX RICELON®

(with upper and lower handle)

The handles on both the top and bottom make work much easier!

For harvesting and drying
rice, wheat, and beans!

Characteristics

- The handles on both the upper and lower parts make carrying and unloading easier.
- Its good ventilation helps prevent sweating.
- The slipping of the contents and stretching of the material are minimized as it is woven with angular threads.
- Its good permeability allows remaining contents to be spotted easily.
